

Analytic Process of Safety Planning

Establish Parameters

NON-NEGOTIABLES

Critical Functions of Safety Plan

What does this Safety Plan specifically need to accomplish?

What must it ensure?
What must it prevent?

Critical Points for Control

What are the critical times and circumstances that require intervention in the home?

Critical to Maintain

What safe parenting is being routinely provided by parents?

What aspects of the regular schedule shield the child?

Explore Possibilities

NEGOTIABLES

Potential Safety Control Responses

Which Safety Control Responses could be effective in providing Critical Functions?

Potential Providers

Who are potential providers - informal providers from the family network and formal providers in your community?

Supervisor Consult

You are ready to negotiate with the family, tribe & providers

Safety Plan

- Sufficient
- Realistic
- Least intrusive
